5 Attorney for Plaintiff Patrick Collins, Inc.

6

7

8 UNITED STATES DISTRICT COURT

9

Northern District of California

10

San Francisco Division

11

PATRICK COLLINS, INC.,

No. C 11-2766 MEJ

12

Plaintiff,

**STATUS REPORT AND RESPONSE
TO ORDER TO SHOW CAUSE**

13

v.
DOES 1-2,590,

JUDGE: **Maria-Elena James**
Chief Magistrate Judge

14

Defendants.

15

16

On December 1, 2011 and on December 7, 2011, the Court issued its Orders for a Status Report and a Order to Show Cause (Dkt. Nos. 59 and 77).

17

In Dkt. No. 59, the Court ordered as follows:

18

19

"If Plaintiff has obtained the Doe Defendant's identifying information, an explanation as to why the defendant has not been named and why no proof of service has been filed, as well as why the Court should not dismiss the defendant pursuant to Federal Rule of Civil Procedure 4(m)"

20

21

Plaintiff has been managing this case in reliance on the Court's Order of August 24, 2011 (Dkt. No. 9) that had granted Plaintiff's request for an extension of time with respect to Federal Rule of Civil Procedure 4(m) (Dkt. No. 6). The bases for Plaintiff's request was, among other things, the time required by the ISPs and Does to do searches and consider options in view of the subpoenas that would be issued (a minimum of about 70 days taking into account service time), and the fact that some ISPs would require additional time to perform searches of their records.

22

23

24

25

26

27

28

In granting Plaintiff's request, the Court ordered (Dkt. No. 9),

1 "1. Pursuant to Rule 4(m) of the Federal Rules of Civil Procedure, the
 2 time for Plaintiff to serve defendants with summons and the complaint or
 3 amended complaint is extended to 180 days after the Court's ruling on the pending
 4 Plaintiff's Ex Parte Application for Leave to Take Limited Discovery Prior to a
 5 Rule 26 Conference.

6 "2. The Case Management Conference shall take place on March 22,
 7 2012 at 10:00 a.m. All case management and ADR deadlines are adjusted
 8 accordingly."

9 Because the Court first granted Plaintiff's Ex Parte Application for Leave to Take Limited
 10 Discovery Prior to a Rule 26 Conference on August 24, 2011 (Dkt. No. 9), Plaintiff has until
 11 February 20, 2012 to serve defendants.

12 Further in reliance on the Orders granting leave to take early discovery and extending the
 13 time to serve defendants, Plaintiff and the ISPs have been incurring substantial expenses in
 14 connection with the ISPs' searching their records and sending notices in connection with the
 15 subpoenas.

16 Plaintiff requests that the Court allow the ISPs to complete their production in response to
 17 the subpoenas. Note: In response to the Court's Order of December 7, 2011, Plaintiff provided a
 18 copy of that Order to them and requested that they send out no new notices, while continuing to
 19 forward to Plaintiff's counsel information regarding Does who had received their notices 30 or
 20 more days beforehand.

21 Plaintiff has also sent a copy of the December 7, 2011 Order to all the potential Doe
 22 defendants to whom Plaintiff had previously sent a settlement offer letter, and in a cover letter
 23 informed them that until a further order is issued, they are not required to comply with or
 24 otherwise respond to Plaintiff's previous letter.

25 Plaintiff contends that the Court had been previously been correctly resolving the
 26 jurisdiction issues in this case. Plaintiff will refrain from repeating the arguments it made in its
 27 memoranda in Dkt. Nos. 5 and 26 and the holdings that the Court previously made in connection
 28 with the jurisdiction issue, other than to say that until a potential Doe defendant is actually
 named, he, she or it is not being haled into court and, besides having his, her or its name and
 related information disclosed so that he, she or it may be named in a lawsuit in this or another
 jurisdiction, suffers no inconvenience or prejudice whatsoever.

1 Attached hereto is Exhibit Q that provides the other information requested by the Court in
 2 tabular form.

3 The following is a recap of the information:

4 All ISPs whose subscribers were listed as Does in this case (114 in all) were served twice
 5 with subpoenas. The first time shortly after the Court's first Order Granting Leave to Take Early
 6 Discovery (Dkt. No. 8), and the second time on September 27, 2011, after the Court's Amended
 7 Order Granting Leave to Take Early Discovery (Dkt. No. 12), which was issued because some
 8 ISPs had objected to the original subpoenas because the first Order did not expressly mention 47
 9 U.S.C. §551.

10 Taking into account service time, even the early responses from ISPS could not, with few
 11 exceptions, be expected before the last week of November. That is, the ISPs had at least 30 days
 12 to give notice to Doe defendants, and then the ISPs had to wait 30 days to see if a Doe brought a
 13 motion to quash.

14 In addition, as anticipated by the Plaintiff's earlier request for an extension of time to
 15 serve defendants, and the Court's granting such request, many of the major ISPs reported that
 16 they needed additional time to search their records in view of the scores, and sometimes
 17 hundreds of names for which they had to search.

18 Out of the 2,590 Doe defendants, about 380 names and other identifying information
 19 (hereinafter referred to collectively as "names") were identified to Plaintiff by ISPs.

20 To the extent that names of potential Doe defendants were provided by ISPS, the were
 21 provided very shortly before they were ingested into Plaintiff's counsel's records. As expected,
 22 few names were ingested before November, 2011. Here is the time table of ingested names:

23 Names Ingested Up to October 31, 2011: 28

24 Names Ingested in November, 2011: 171

25 Names Ingested in December up through December 7, 2011: 196

26 A few names were duplicates. That is, a few Does likely had their IP addresses changed
 27 during the period of time that their infringements were detected, so that multiple IP addresses
 28 were recorded for them. Some names were provided by Does themselves or by their counsel in

1 settling claims. They are among the Does dismissed with prejudice in Dkt. No. 91. All
 2 settlements that were reached were reached before December 7, 2011.

3 Some ISPs reported that some or all of the Doe names were no longer in their records
 4 (i.e., the timestamps for their subscribers indicated a date that was beyond their normal record
 5 keeping retention period).

6 Based on communications with some major ISPs, namely, Verizon, Comcast, Charter,
 7 Cable Vision and Cox, they are expected to make or complete production of the requested
 8 information shortly.

9 Information relating to about 5 potential Doe defendants who reside in the Northern
 10 District of California was produced by ISPs. Those defendants are among the Does dismissed in
 11 Dkt. No. 91. In addition, as indicated above, Plaintiff's counsel believes more information is
 12 forthcoming in connection with at least 130 potential Doe defendants that are believed to reside
 13 in the Northern District.

14 An amicus brief has been filed by Digital Rights Foundation ("DRF"). See Dkt. No. 84.
 15 That brief illustrates the shameless gall of copyright pirates and their defenders.

16 DRF baselessly states,

17 "From the beginning, the Plaintiff has intended to omit certain disclosures
 18 to the Court in order to exploit and game the judicial system. . . .

19 "Further analysis of the geographical location data of the IP addresses
 20 reveal stark revelations that only approximately 29.6% of the 2,590 Does
 originate from within the State of California, while approximately 70.4%
 21 originate outside of California with every other state (including the District of
 Columbia) represented."

22 No "gaming" of the system occurred, and DRF has provided no "stark revelation" to the
 23 Court. Plaintiff never contended that all potential Doe defendants reside in the Northern District.
 24 In fact, what was stated is this "On information and belief, more than 1 out of every 4 of the
 25 Defendants' IP addresses is physically located in California, and of those, more than 1 out of
 26 every 4 is in this judicial district." See page 5 of Plaintiff's memorandum in Dkt. No. 5.

27 The undersigned declares under penalty of perjury that the facts set forth above and in the
 28 attached Exhibit Q are true and correct of his own personal knowledge, except for those matters

1 stated on information and belief, and those matters the undersigned believes to be true, and if
2 called upon to testify the undersigned can competently testify as set forth above.

3 In view of the foregoing, Plaintiff requests that the Court (i) allow the ISPs to comply
4 with the subpoenas, (ii) allow Plaintiff and those potential Doe defendants who desire to settle
5 their claims to reach settlements, and (iii) postpone any requirements that Plaintiff name and/or
6 dismiss any potential Doe defendants until February 20, 2012 pursuant to the Court's Order of
7 August 24, 2011 (Dkt. No. 9).

8

Respectfully submitted,

9

EXHIBIT Q

Exhibit Q

Patrick Collins, Inc. v. Does 1-2,590, Case No. CV 11-2766 MEJ
Charts Providing Information Requested by Court in Dkt. Nos. 59 and 77

NOTES:

All ISPs whose subscribers were listed as Does in this case (114 in all) were served, most twice, with subpoenas. The first time shortly after the Court's first Order Granting Leave to Take Early Discovery (Dkt. No. 8), and the second time on September 27, 2011, after the Court's Amended Order Granting Leave to Take Early Discovery (Dkt. No. 12), which was issued because some ISPs had objected because the first Order did not expressly mention 47 U.S.C. §551.

Taking into account service time, even the early responses from ISPS could not, with few exceptions, be expected before the third week of November. That is, the ISPs had at least 30 days to give notice to Doe defendants, and then the ISPs had to wait 30 days to see if a Doe brought a motion to quash.

In addition, many of the major ISPs reported that they needed additional time to search their records in view of the scores, and sometimes hundreds of names for which they had to search.

Out of the 2,590 Doe defendants, about 380 names and other identifying information (hereinafter referred to collectively as "names") were identified to Plaintiff by ISPs.

To the extent that names of potential Doe defendants were provided by ISPS, they were provided very shortly before they were ingested into Plaintiff's counsel's records. As expected, few names were ingested before November, 2011. Here is the time table of ingested names:

Names Ingested Up to October 31, 2011: 28
Names Ingested in November, 2011: 171
Names Ingested in December up through December 8 2011: 196

A few names were duplicates. That is, a few Does likely had their IP addresses changed during the period of time that their infringements were detected, so that multiple IP addresses were recorded for them. Some names were provided by Does themselves

or by their counsel in settling claims. They are among the Does dismissed with prejudice in Dkt. No. 91. All settlements that were reached were reached before December 7, 2011.

Some ISPs reported that some or all of the Doe names were no longer in their records (i.e., the timestamp indicated a date that was beyond their normal record keeping retention period).

With respect to the information in the table below regarding ISP compliance with the ISPs, there are some major ISPs that are shown to be not in compliance when in fact they have so far partially complied. Those ISPs are the following:

Verizon
Comcast

Those major ISPs, and the following ISPs that are shown to not be in compliance:

Charter
Cable Vision
Cox

are, based on communications received from such ISPs, expected to produce the requested information shortly.

Information about 5 potential Doe defendants who reside in the Northern District of California has so far been produced. Those 5 have settled. However, as indicated above, Plaintiffs' counsel believes such information is forthcoming in connection with the following approximately 130 potential Doe defendant's that are believed to reside in the Northern District:

Doe No	ISP	Purported City at Timestamp	Purported State at Timestamp

2531	Comcast Cable	Novato	California
2532	Comcast Cable	Oakland	California
2534	Comcast Cable	Oakland	California

The above table relates to potential Doe defendants that a MaxMind® search done shortly before litigation was started indicates reside in the Northern District. Any such search done today would be unreliable because subscribers' IP addresses change over time. Note in this regard that Plaintiff never contended that all potential Doe defendants reside in the Northern District. In fact,

what was stated is this "On information and belief, more than 1 out of every 4 of the Defendants' IP addresses is physically located in California, and of those, more than 1 out of every 4 is in this judicial district." See page 5 of Plaintiff's memorandum in Dkt. No. 5.

In the table above, and in the table below, the "Purported City at Timestamp" indicates the geographic information obtained from the above-mentioned MaxMind® search. Such information, however, is not 100% reliable. For example, the MaxMind search regarding potential Doe defendant 227 indicated that the subscriber resided in Pennsylvania, when the ISP reported that the subscriber actually resides in Delaware. The Reported Doe Names are indicated by Xs. And, as indicated above, a "No" under "Complied" may indicate partial compliance, or compliance may be expected shortly.

Below is a table providing information regarding all 2,590 potential Doe defendants:

Doe No.	IP Address	Timestamp	ISP	Purported City at Timestamp	Reported Doe Name	Reported Doe City	Reported Doe State	Reported Doe State	Reported Doe State	Reported Date Name	Reported Date Name	Complied*
